- Facilitating access for firefighting and maintenance.

Typical setback requirements include:

- Front setback: 3 meters
- Rear setback: 3 meters
- Side setbacks: 1.5 meters or more, depending on plot size

4. Land Use Zoning

Zoning regulations delineate areas designated for residential, commercial, industrial, and mixed-use purposes. These are based on master plans to promote balanced urban growth and prevent incompatible land uses.

5. Building Materials and Construction Standards

Materials used must adhere to safety and durability standards. The rules specify standards for:

- Foundations and structural elements.
- Fire-resistant materials.
- Sustainable and eco-friendly options.

6. Fire Safety and Emergency Provisions

Buildings must incorporate fire safety measures such as:

- Adequate fire exits.
