- Apex: The pointed inferior end, directed downward and to the left.
- Base: The broader superior part where major blood vessels attach.
- Surfaces:
 - Diaphragmatic (inferior) surface: faces downward and rests on the diaphragm.
 - Atrial (posterior) surface: faces the posterior thoracic cavity.
 - Pulmonary (lateral) surfaces: face the lungs on either side.

Major External Features

- Coronary Sulcus (Atrioventricular Groove): Encircles the heart, separating the atria from the ventricles.
