the upper slope is much gentler, creating a distinctive profile. This design not only offers aesthetic appeal but also maximizes interior space, especially in the upper levels.

Structural Characteristics:

- **Dual Slopes:** The upper and lower slopes create a spacious attic or upper-level area, making it ideal for additional bedrooms, offices, or recreational spaces.

areas into seamless spaces that take advantage of the vaulted ceilings for a sense of grandeur.

- Large Windows and Natural Light

Gambrel homes often feature expansive windows, especially on the front facades, to maximize natural light and highlight the unique roofline. Skylights are also common to enhance upper-level illumination.
